

# Bend Time Back 'Round

Paula Abdul

He led me astray  
When my mind was weak  
That's all I can say, baby  
He filled me with words  
He knew I would believe  
He's nothing but dirt sorry

If you bend time back round  
Will you bend it to me  
If you bend time back round  
Will you bend it to me  
If you bend time back round  
Will you bend it to me  
If you bend time back round  
Will you bend it to me

He's a pretty face  
Dressed up to the 'T'  
Nothing but a space  
Underneath

I felt like a fool  
I turned from you so fast  
Time takes me from you  
Bend it back

If I could do it once again  
I'd never let the bastard in  
He's puttin' on a show  
The curtain's crashing down and closin'

I wish to back up my steps  
So you'd have nothing to forget  
A flip to reality  
I wanna pretend you did not see it

Twisted up in knots  
He had me so confused  
He turned my every thought  
Away from you

I was drifted out  
On a fantasy  
But now I'm comin' round  
Back to me
