

# It's All About Feeling Good

Paula Abdul

Baby I'm down to what you want  
But there's some conditions you'll have to follow  
You know that I'm not afraid to party  
So do you wanna have some fun  
You're gonna have to get to know me better  
let's

go where the music's pumpin'  
That's where I want to be  
Don't think about anything else boy  
I'm feelin' right so just vibe with me tonight  
Cuz it's all about feeling good  
You've got to free your mind  
It feels so good when the music hits ya  
It's all about feeling good  
You've got to ease your mind  
Baby get into it, cuz it feels so right  
I'm hip to the way, the way we get along  
I never thought you had it in ya, you're trying to turn me out  
Now you think you're all that baby, let me show you how  
How you do it, I know I can hold my own  
Baby how you feeling now  
Don't trip I'm just grooving to the music  
Just let your body flow  
Boy come here move a little closer  
It's all about, it all about a good time tonight
