

# Overloved

Paula DeAnda

I need to find somebody who can't sleep at night  
Without holdin' me, without holdin' me tight  
I want someone who sees me all the time in their dreams  
And then wakes up thinkin' just of me

Spent time on my own  
Spent time being free  
Now I just wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away

Overloved  
Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

I want someone who can't wait to kiss me again  
Even though it's been a minute since they last did  
Want someone who loves love songs  
And dedicates them to me  
And two loving arms never out of reach

Been fine all alone  
Did fine being free  
This time I wanna be  
This time I wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away

Overloved  
Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

Want someone to talk to me with talk so sweet  
Want someone who's there to share their world with me  
Oh baby, I've been too lonely for too many nights  
This time I need someone here in my life

This time I want someone holdin' me tight  
Been under kissed, under touched  
Now I just wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away

Overloved

Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

I just wanna be  
By someone who's over in love with me  
Over kissed, over touched  
Over missed  
Overloved
