Only when I'm sure she's sleeping will I look
She said that only when there sleeping
She'll slip away
There's just one more
And I'm fairly sure
That she would wait up all night for me
It's good to know
There's someone who cares
And maybe someday take care of me

I won't bring you down
I won't bring you down

And only when I'm sure she's sleeping will I look
She's said that only when there sleeping
She'll slip away
We saw the clouds
And all of the kids who knew my name
There's just one more
And I'm fairly sure
She would wait up all night for me

I won't bring you down
I won't bring you down
I won't bring you down
I won't bring you
Won't bring you down

I'm not gonna hurt you
And I'll try real hard not to push you
And I promise that I will
And I'll try real hard
And I'll try real hard
I won't bring you down
