## Moth

## **People In Planes**

Moth on the wall you never fall You just disappear from view You don't even have to try To make a nuisance of yourself

You deny all knowledge That anything ever happened here Did it ever happen

So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, YOURSELF

Someday you will find You can't stand YOURSELF You'll radiate you self-hate

Are you aware of the smoke? It's getting in my face I dedicate this song to you For choking up my life

Oh sheriff
You're pregnant
So who'll stop the killing spree
When you
Take your
Maternity leave

So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, YOURSELF

Someday you will find You can't stand YOURSELF You'll radiate your self-hate
