

## Rusty Chains

Perfume Genius

All my dreams  
I've seen them leave with my old love  
No longer near me

Now I am made of rusty chains rattling  
Oh let them  
Let them break

Whoever does undo these knots  
Oh let me claw my way to the front  
And be with him

Like that summer  
The one we spent before  
He was taken from me

So safe  
That feeling that is so endless  
Oh let me rest

In his arms again  
So safe was that feeling  
And so endless
