

# There Goes The Sun

Pernice Brothers

Now always, I wait for you  
To take this pale opaque  
And let some light go through

Kicked the life from me  
Left a headless drum  
Crushed the rabbit cage  
Of my skeleton

Overload on lets get lost  
Scratched your farewell couplet  
In my window frost

Kicked the life from me  
And none better comes  
Till one better comes  
There goes the sun  
There goes the sun

Hope there's love  
Where you may land  
Let this frost heave  
Open up and take me in

Kick this life from me  
Till one better comes  
Till one better comes  
There goes the sun  
There goes the sun

There goes the sun  
There goes the sun  
There goes the sun  
There goes the sun

There goes the sun  
There goes the sun
