

E\$pecially For You

Peter and the Test Tube Babies

Especially for you, I wanna let you know what I was going through.

All the times we were apart I thought of you.

You were in my heart, our love never changed, I still feel the same.

Especially for you, I wanna tell you I was feeling that way too

,

and If dreams were wings, I would have flown to you.

To be where you are, no matter how far, now that I'm next to you.

No more dreaming about tomorrow, forgetting all the lonlieness and sorrow.

How can I say it's all because of you and now we're back together, together.

I wanna show you, my heart is oh so true., all this love I have is especially for you.

Especially for you, I wanna' tell you, you mean all the world to me.

I'm certain that our love was meant to be.

You changed my life, you showed me the way and now that I'm next to you.

I've waited long enough to find you, I'm gonna put all the hurt behind you.

Oh I wanna bring out all the love inside you and now we're back together,

together, I wanna show you, my heart is oh so true, and all this love I have is especially for you.
