Shelter Through The Night

Peter Frampton

I don't know what hit me
Come out of the blue
Like when you told me
We were through
I must have been blinded
I was under your spell
What was it made you change the way you feel
I wanted to be there for you
I guess I couldn't give you what you need

Where were you when the rains began to fall – Oh yeah
In your heart you don't want to lose it all
I need shelter through the night

I tried to make you listen
I couldn't make you believe
You keep hiding out
You don't wanna see
Just give me one reason
Why you had to go
I can't take anymore I just have to know
You asked me to stand by you
Like a fool I turned away and you were gone

Where were you when the rains began to fall – Oh yeah
In your heart you don't want to loose it all
I need shelter through the night

I wanted to be there for you
I guess I couldn't give you what you need

Where were you when the rains began to fall – Oh yeah
In your heart you didn't want to loose it all
I needed shelter through the night
Where were you when the rains began to fall – Oh yeah
In your heart you didn't want to loose it all
I needed shelter through the night
