

# This Time Around

Peter Frampton

We'll be fine this time around  
Hold the line this time around  
All that stormy weather  
Get your soul together now  
There's blue sky all around

Once we gave into the night  
Got it wrong but that's alright  
There's a new day shining  
There's a silver lining now  
This time we both know how

Take the love that I bring  
Take this song that I sing  
Melody, harmony, You and me  
We're gonna play it right this time around

No one breaks this time around  
Life just takes where we're bound  
Hear the music playing  
We know what it's saying know  
Lost until we're found  
And we're found this time around

Take the love that I bring  
Take this song that I sing  
Melody, harmony, you and me  
You see dreams will come true this time around  
Coz it's high time this time around

In the dark on the way  
Dream the light 'till it stays  
Got it all here and now  
It's our time this time around
