

# Thunderhead

Phish

I need a new way to express myself  
So you don't need to guess  
What otherwise I'd say aloud  
And watch it float just like a cloud

High up above you like a thunderhead  
But you would just look down instead  
And you wait 'til foggy skies abate  
And vapor clouds all dissipate

And when with them all my words for you  
Have softly sublimated too  
And you'll just hope that I've moved on  
So you'll look up and find me gone
