The Real Thing

Phoenix

They said that you don't You promised too well I'm calling my number So that's real

Almost, almost, almost the real thing How could I have missed that one? How could I have missed it?

Am I the only one?
You're into love
Twenty-year-old and bored
I learn for a better future

But lover in the ocean
Drown into the throne that you sit on
Far ahh
Far, far away
Hold me for a ransom
It's not enough for you to live alone

Tell me that's what you wanted Follow, follow me Follow me Follow me Follow me

You're more than I want I figured you well Back in September We'll make it a deal

Almost, almost, almost the real thing How could I have missed that one? How could I have missed it?

Am I the only one? You're into love Twenty-year-old and bored I learn for a better future

But lover in the ocean
Drown into the throne that you sit on
Far ahh
Far, far away
Hold me for a ransom
It's not enough for you to live alone

Tell me that's what you wanted Follow, follow me Follow me Follow me Follow me Follow me Follow, Follow me Follow me
