

Tell me, tell me, tell me
What you're after
Rush it, rush it, rush it
Who'd you root for?

You sounded too excited
Watch you is not fun
If only boys around you
Would let you listen

Don't tell the broken hearted
"That's what you get"
I like the girls around you
But you were missing

You send the letter for the last tuition
Found the reason
You've been tossed around
I'm right behind you

Smash the castle down, delete it
Tuttifrutti, it's all on me
Wreck the spectacle you live in
Broken glass and porcelain

We'll be trashing motels
Tuttifrutti, it's all for free
Sell the gold silverware
Burn the rest and melt with me

Show me, show me, show me
Tears or laughter
Don't hide it, hide it, hide it
It's too sinister

Come buy a ticket
To your next vacation
There's only one around you
That does the stitching

So call me, call me, call me
Back if you wait
Forget the mess behind you
Forgot the lesson

Stop, what you do with your lifetime
It's only protocol
"If I can do it, you can do it"

Smash the castle down, delete it
Tuttifrutti, it's all on me
Wreck the spectacle you live in
Broken glass and porcelain

We'll be trashing motels
Tuttifrutti, it's all for free
Sell the gold silverware

Burn the rest if I can't fit in

You're numero uno, ready for the win

Ready to fool everyone in the end

We'll be trashing motels

Tuttifrutti, melt with me
