

## Just To Get By

Pillar

Listen up here's another lesson  
Chapter 2 of this saga  
Sparks yet another question  
Are you doing just enough to get by  
To try and fool 'em into thinking  
That you live the right life  
Or maybe thinking since you can't see Him  
He can't see you  
That's understandable 'cause  
Then I used to feel it too  
But we're responsible for every action  
And like Newton there's an equal reaction

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

It's so ridiculous to think you all just hearin' us  
If you believe it let it known y'all be feelin' us  
Not just the sound but the Trinity in whom we trust  
It's already known who in the end will be victorious  
And like KJ it's a 12-round knockout  
I'll fight to the end and I'll be the one to walk out  
Step out holdin' up the crown like a title belt  
It's one bout the devil wish he never dealt

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

It's all mixed up in your head about  
What's wrong and what is right  
It's all mixed up in your head about  
What's wrong and what is right  
It's all mixed up in your head about  
What's wrong and what is right  
It's all mixed up in your head about  
What's wrong and what is right  
What's right

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life

You're afraid of what it takes to give it all away

Doing enough just to get by, just to get by  
Thinking that you live the right life

You're afraid of what it takes to give it all away  
Doing enough just to get by, just to get by  
Thinking that you live the right life
