

One Good Reason Why

Pilot

She said it's a wonderful world,
It's a wonderful night
She said there were so many things
She could do with her life
Take love, give love, alright

One day she was taking a walk
Just to pass the time
Some kid lost control of the car,
She didn't look behind
God why, please why,
Give me one good reason why

All the lights went out, the music stopped
And the dream was gone
She had lost her life like a flash of light
And she would never know

God why, please why,
Give me one good reason why

If you lose someone,
And your hope is gone
You can make it through
You can find the light in the coldest night
And let it shine on you

Sometimes when I'm on my own,
God only knows
I feel like she's comin' to me,
But she never shows,
God why, please why,
Give me one good reason why
God why, please why,
Give me one good reason why
