wise men say
listen to your heart
don't throw your dreams away
mad men play
with power and they say
blow those fools away

we don't need power play people they piss me off

we don't need condemnation we're not breakin' the law we don't need condemnation leave us alone

fools have shown what everyone had known and all have known the truth lovers fight they lie to make it right the truth can sometimes hurt

we don't need power play people they piss me off

we don't need condemnation we're not breakin' the law we don't need condemnation leave us alone

you don't have time so open up your mind no two think the same let them be maybe then they'll see there's no one to blame

we don't need power play people they piss me off

we don't need condemnation we're not breakin' the law we don't need condemnation leave us alone
