

# Love You to Death

Pixie Lott

I bring out the best in you  
But you bring out the worst in me  
There's nothing that I wouldn't do (for you)  
But you don't give me anything

Wish that I was strong enough to weather this storm  
My friends are saying they don't recognize me from before  
But when I say "I'll leave" you don't believe me anymore

[Chorus]

Cause you know that I'll always be there  
Maybe that's why you don't care  
So just take it all  
And watch how I fall  
Always thinking you'll catch me  
You are killing me slowly  
I keep holding my breath  
Cause I love you to death  
I love you to death  
I love you to death

You're the reason I still hope  
You're the reason I still joke  
Used to be your love will take my hurt away  
But now you love to watch me break, mmmh

How Imma suppose to leave if you refuse to let me go  
Don't know how I ever let you have so much control  
Every time you feelin high you make me feel so low

[Chorus]

Cause you know that I'll always be there  
Maybe that's why you don't care  
So just take it all  
And watch how I fall  
Always thinking you'll catch me  
You are killing me slowly  
I keep holding my breath  
Cause I love you to death  
I love you to death  
I love you to death

Every time you come back I believe it  
But I know that you don't really mean it  
You're so good being bad that I buy it  
Every time you come around

You're the reason I still hope  
You're the reason I still joke

[Chorus]

Cause you know that I'll always be there  
Maybe that's why you don't care  
So just take it all  
And watch how I fall  
Always thinking you'll catch me  
You are killing me slowly

I keep holding my breath  
Cause I love you to death  
I love you to death  
I love you to death
