

# Queue Jumping

## Plan B

In the past yeah you got it wrong  
So now you gotta get it right baby, right baby  
Aint no surprise that they're all over you  
Trying to get up in your vibe babe, vibe babe  
Don't let yourself be on the side baby  
Girl don't let yourself be lied to  
You need somebody on your level  
You're far too good to just settle, baby

You got me thinking I'm not drinking how did I get drunk?  
I'm off of my face  
You got me laughing, got me joking, got me having fun  
Forgetting my place  
You got em waiting in line, waiting in line  
But I jumped the queue  
You got em waiting in line, waiting in line  
Just so I can talk to you

Uh uh oh my dear  
I'll be jumping that queue just to show you I got  
All you need right here  
I'll do all I gotta do just to stay in your spot  
Uh uh oh my dear  
I'll be jumping that queue just to show you I got  
All you need right here  
I'll do all I gotta do just to stay in your spot  
...Oh my dear

Crazy how well we seem to get along  
Feeding off these jealous eyes baby, smile baby  
Those kinda guys will put the brakes on you  
I tell you now that's not my style babe, style babe  
Not trying to take you for a ride baby  
Take the wheel I want to drive with you  
I know I'm pushing your pedals  
Let me push you to the metal baby

You got me thinking I'm not drinking how did I get drunk?  
I'm off of my face  
You got me laughing, got me joking, got me having fun  
Forgetting my place  
You got em waiting in line, waiting in line  
But I jumped the queue  
You got em waiting in line, waiting in line  
Just so I can talk to you

Uh uh oh my dear  
I'll be jumping that queue just to show you I got  
All you need right here  
I'll do all I gotta do just to stay in your spot  
Uh uh oh my dear
