

I Shall Take It Anyway

Poni Hoax

What you gave me is a joke
I shall take it anyway

Well, you took me by surprise
I shall fake it anyway

And nobody lives here
And there is no pain here
And nobody lives here
And there is no pain for you

Senses sometimes do compromise us
I shall take it anyway
This light you hand me out is blown
I shall take it anyway

You say there is no war between us
You're wrong, so just lead the way
I don't care about those wretched lies
I shall fake it anyway

And nobody lives here
And there is no pain here
And nobody lives here
And there is no pain for you

And nobody lives here
And there is no pain for you
And nobody lives here
And there is no pain for you

For I love more the idea of love than I love you
For I love more the idea of love than I love you
