Rock Child

Pothead

Rock steady baby, rock right through
Rockin' and Rollin' from the womb to the tomb
Learn your golden rule-music, she don't lie
If you treat her right, she'll be very kind
Who says rock'n'roll is all spent and past
Says this thing will never last

Rock Child

Rock it steady thruth sublime
Rock the little ditty that's on my mind
Sing it like the blues they're comin' from the past
They say that rock'n'roll will never last

Gonna try to shred this six string apart
Play the thing from my heart

Rock Child
Rock this Thudpucker

Rock and rhythm, rock our lives away
Amazing how we're movin' to the melody
The rush and the rhapsody of tune
Rock it little baby it's inside you
Who says rock'n'roll is all about the past
Saysthis thing will never last

Rock Child
