

## Surviving

Powderfinger

I'll stand at your shoulder  
I'll keep you running right  
Keep you running right  
I'll fight in your corner  
I'll stay by your side  
I'll stay by your side

There's no need now to worry  
Our love's still here tomorrow

There aint no use in crying  
for whats keeping us divided  
Baby we're still trying, we're still trying

We're too old to worry  
About who's wrong and who is right  
Is's all so by and by  
People need a villain  
Someone to pay the price  
It keeps them satisfied

There's no need now to worry  
I'll still be here tomorrow

There aint no use in crying  
for whats keeping us divided  
Baby we're still trying, we're still trying

Baby we're still trying  
Baby we're surviving
