Lovers of Today

The Pretenders

I tried to talk to my baby I said no, no, no, no baby Please don't cry No, no, no baby please 'Cause all of the leaves come down Every time babies cry All of the leaves come down

I put my arms around my baby I said hush, hush, hush, hush Baby sleep tight now Hush, hush, hush baby, sleep 'Cause all of the birds start to sing Every time babies dream All of the birds start to sing

Nobody wants to see Lovers of today happy So assumed they're going to part Nobody wants to be with someone So afraid they'll be left with A broken heart

I kissed the eyes of my baby I said dream, dream, dream, dream Baby all night long Dream, dream, dream all the night 'Cause all of the stars in the skies Twinkle on baby's eyes All of the stars in the skies

I tried to talk to you baby No no No I'll never feel Like a man in a man's world
