

# Suicide

Pretty Boy Floyd

I wanna take you for a ride  
So jump aboard  
It's the suicide you like  
The devil in your eyes

You like to feel the pain life gives  
You've tasted all the shame  
You're living with those lies  
Your karma wont survive  
You're on a nonstop street  
Which is no place for me

I always tried  
To hide from the shady things in life  
You're always coming from  
Your mom and dad have gone

I'll try once more  
To keep things right  
You're wasting too much time  
You're running out of luck  
This life is starting suck  
You're on a nonstop street  
Which is no place for me

We're on a one way ticket on a one way ride  
You are my suicide  
Just you and me no more friends to see  
Just you and me

We're on a one way ticket on a one way ride  
You are my suicide  
Just you and me no more friends to see  
Just you and me

We're on a one way ticket on a one way ride  
You are my suicide  
Just you and me no more friends to see  
Just you and me
