

The Seven

Primus

Red Orange Yellow Green Blue Indigo Violet
These are the colors of the Seven
When a rainbow catches their eye
They lure and beguile it
These are the Desaturating Seven

The Seven came a creepin'
The Seven came to play
The Seven filled the land with a cold dismay
Seven came slaking their wretched thirst
desaturating colors 'til bellies burst

The Desaturating Seven
The Desaturating Seven

Red Orange Yellow Green Blue Indigo Violet
These are the Desaturating Seven
With the grandeur of the world
they abuse and defile it
These are the Desaturating Seven
They fill their mouths with greed
and take way more than they need
The Desaturating Seven
They're going to prowl and prey
'til the world is dark and grey
They are the Desaturating Seven

The Seven came a creepin
The Seven came to play
The Seven filled the land with a cold dismay
Seven came slaking their wretched thirst
desaturating colors til bellies burst
