

## My Life

## Princess Superstar

This is a story from my lifes  
See I wouldn't want to lie  
Getting on by with my lullaby  
And all a my friends getting high  
Mens holler holler hi all the time  
But I can't find no man to love me

Sometimes I get up I'm down  
I feel deadened hurt headed I'm down so I sweat it  
Through my day this ain't the way chained to the desk  
Mess hurt wrists phone fits and post-its  
I heard it gonna change but see you in it hard to see  
The final minute when  
The world is yours all yours  
I'll get it I mean it  
And in the evenin, I'm alone  
Not by the phone but I'm alone yo  
Persevere all my fears try to weigh me down  
Look around my ceilin's peelin rap deal you feelin I ain't now  
Do it myself independent gotta try, no lie  
Ain't No Limit kid no Majors  
Gonna fuck me up right  
I just want to sing a song about my life, my life

This is a story from my lifes  
See I wouldn't want to lie  
Getting on by with my lullaby  
And all a my friends getting high  
Mens holler holler hi all the time  
But I can't find no man to love me

I'm sweet like nickel  
Candy debutante on the street what in heat  
Caught you haulin at me, mind stallin at me  
Need you workin for me, need you talkin to me  
Not something fuckin on me, what!  
I'm patient like a doctor  
Got the stock of proper genius hottest Venus  
On top I'll stop your heart drop  
Your jaw right to your pe-better heed this  
Queen of Mt. Olympus can't resist the goddess honest  
The kind you never  
Always take home to your mamas  
Accomplish what no other can treat you like no other man  
Understand this mad mind body you ain't seen in a woman  
My mommy posessed this passed this on  
Dad made me strong played me mad songs growin up  
Told me I be the one well I want the one  
Levels deep and heart drum beat  
boom beat boom beat  
But complex properties of my mind keep em 10 steps behind  
Ttakin mad time to find a guy it ain't right  
Worthy of my lullaby it ain't right  
Try to keep this shit inside it ain't right it ain't right  
All night I can drive you wild  
The sex the intellect get respect fuck the cheddar  
Better bet

I'm the next to get mine find mine it's alright  
But sometimes it hurts my mind

This is a story from my lifes  
See I wouldn't want to lie  
Getting on by with my lullaby  
And all a my friends getting high  
Mens holler holler hi all the time  
But I can't find no man to love me

Word to God  
I'll be the best girl you ever got, I'll keep it so hot  
I'll just never stop  
I got the plot locked, I got no guns cocked  
And if you with me let me hear you say Nana  
I'm sure that this is more than you can handle  
This example  
Coming from a girl placed high up on the mantle  
Hold a candle to it, sick of the predicament  
Tired of the bull thick headed  
Need a sedative to get at it, well I invented it  
My case in point I would anoint you my prince  
Love you head toe to fingerprints  
All benefits laugh and count all our kids,  
make all our bids  
Butterfly kiss with our lids  
Let's make it come all to this  
Gem at the precipice of the palace  
Drink from my chalice  
Never be jealous, no malice, I'll be your ballast  
When winds blow on I'll stand strong  
When winds blow on I'll stand strong
