

## Let It Die

### Protest the Hero

6 billion minds, controlled by one  
10,000 more, stare down the barrel of a gun  
Annihilation by a system of our own design  
Your definition of freedom, my friend, needs to be redefined

A quality, or a state of being free  
Your absense of necessity brings a country to it's knees  
And your slavedrivin way of government wears the mask of democr  
acy  
And the way you abuse your leadership my friend, doesn't make m  
uch sense to me

Watch, watch it die, let it burn, watch your empires crumble

Watch your empires  
Watch them die  
Die by the hands of you
