

## Give Peace a Damn

Public Enemy

Live it up

Two fingers up  
Mother earth screwed up  
Beautiful scenery  
Betray that scenery  
Pray to machinery  
Tombstone cowboy  
Start where your head at  
Some wanna shout  
Some gotta cut  
Some get caught  
Many fought  
Untaught  
Get 'em in court  
Save my hood  
But what good is my hood  
When God say it's no good?  
It's no good when its no God  
Know God

Give peace a damn  
Or we don't stand a chance  
Give a damn

Live it up

I get like Mingus  
Ain't askin' y'all to sing this  
Every hood is the same  
The only difference is the slang  
Deeds of evil  
Game changers  
Upheaval  
Evil salutations  
To your mutations  
Lotta nerve  
To say you disturbed  
Guess who's coming to dinner  
The same folks who picked your dinner  
It don't sound like a winnin'  
Only just the beginning  
Respect the beginning  
Peace to the world we all living in it
