

It Was Faith

Puddle of Mudd

Knew you were heaven sent
'Cause you threw my heart into the cage again
So I'm hangin' on by letting go
And I can't stop this
It's bigger than I've ever known
I'm not alone

And I'm here because of faith
And not all of the times you left me bleeding
It was faith and not all of the times you left me bleeding
You kept me going
I want you to know thanks to you I've come around
It was faith

I've been awakened
By the lonely tears falling down my face again
And the bitterness on my skin
It's not forgotten
But you've forgiven everything I've ever done

And I'm here because of faith
And not all of the times you left me bleeding
It was faith and not all of the times you left me bleeding
You kept me going
I want you to know thanks to you I've come around
It was faith

(Yeah!) You know it was faith
I'm trying hard to never see you leave again
You know it was faith
Say good-bye to yesterday

Thought you were heaven sent
'Cause you threw my heart into the cage again

So I'm here because of faith
And not all of the times you left me bleeding
I'd give you everything
You're the reason I'm still breathing
You kept me going
I want you to know thanks to you I've come around
Somehow you kept me going
I want you to know that we've become closer now
It was faith
