

## Fuel

## Pulley

It's dark I see through the smoke we breathe  
It's loud I can't hear the songs we play  
Play fast everything keeps going slow  
Taken down to size I'm feeling  
Feel the scars beneath my clothes  
Covers what I want to show  
Open mind my heart is open too  
Take back everything you once said  
No more we're not going anywhere  
Forget don't remember anything  
Taken down to size I'm feeling  
So hard why's it hard to see  
Realize how it's going to be  
Holy wars  
Alienate
