

Four 'f' Club

Pungent Stench

Find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
First you, you gotta find her

If she's an airhead you never mind her
You search throughout every club in the land
It's better than using your hand
You find yourself a real dumb chick

Someone to get down on your dick
Then you know what you got to do
You take her home now for a screw
You got to

Find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
Then you, you got to feel her
Then you, you start to peel her

You feel up her booty and you feel her tits
Make sure she hasn't got no zits
Feel her body and you feel her ass
Make sure she's got a lot of class

Then you know what got to do
You take her home now for a screw
You got to
Find her, feel her, fuck her, forget her

Find her, feel her, fuck her, forget her
Then you, you got to fuck her
If she's got big tits you suck her
Then you fuck her for a little while

Ram it on home now doggy style
Rubbin' and oozin' and maxin'
And squirtin' it right in her face
She's the biggest slut in the place

Then you ball her with her legs in the air
Or on a bed or over a chair
You got to
Find her, feel her, fuck her, forget her

Find her, feel her, fuck her, forget her
There she is,
That big ugly airhead
She's cumming back,

What do we do men
We find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
Then you, you got to forget her

Pretend you never met her

You point to the fucking door
And say get out of here,
You fuckin' whore

Pick up your bra and pick up your blouse
And get the hell out of my house
Pretend you never met her,
It's time to regret her

You got to
Find her, feel her, fuck her, forget her
Find her, feel her, fuck her, forget her
There she is,

She comes back for more
What do we do men
Find her, feel her, fuck her, forget her
