

Scandalous

Queensberry

C'mon and take me somewhere baby
That I've never been
I wanna feel the waves crash down like
Summer on my skin
Just Like Lucy up in the sky with in her in eyes
By candlelight
I wanna let you see me
letting everything fall away that you say?

Cause I, I wanna find a place where there's
nobody but us
I, I wanna find somewhere we can be scandalous
A little bit, little bit crazy, c'mon would you be my
baby
We're gonna get lost in usw, feel the rush, scandalous
A little bit little bit crazy, C'mon would you be my
baby
It's gonna get dangerous when we touch, scandalous

They'll bothin' left behind
But footsteps in the sand
I'll take you to my secret place
With my hand in your hand
I know everybody needs somebody to call their own
Don't let me go
Till every inhibition starts to melt away here in our
hideaway

Cause I, I wanna find a place where there's
nobody but us
I, I wanna find somewhere we can be scandalous
A little bit, little bit crazy, c'mon would you be my
baby
We're gonna get lost in usw, feel the rush, scandalous
A little bit little bit crazy, C'mon would you be my
baby
It's gonna get dangerous when we touch, scandalous

C'mon and show me
what it feels like to turn the whole world inside out
With nobody nowhere nears who's gonna bring us bring
down
From our cloud

Cause I, I wanna find a place where there's
nobody but us
I, I wanna find somewhere we can be scandalous
A little bit, little bit crazy, c'mon would you be my
baby
We're gonna get lost in usw, feel the rush, scandalous
A little bit little bit crazy, C'mon would you be my
baby
It's gonna get dangerous when we touch, scandalous
