You told me I was one in a million Everything you wanted in this world Every time I turn around I hear tell you paint the town With one of this million other girls

Oh, watcha do to me is not the question I swear I felt the magic from the start I see the promise of a legendary love But I am not about to share your heart

R: I'd do almost anything just to make you mine
But I won't stand in line
I won't stand in line waiting for your call
I won't take a number, just to take a fall
So make up your mind
I won't stand in line

Oh, how long do you think that you can handle Keeping all those hearts up in the air Don't you know in time you're bound to stumble And when that day comes it won't be my affair

R: (2x)

Oh, I won't stand in line
I won't stand in line
I won't stand in line
I'd do almost anything if I could make you mine
I won't stand in line
I won't stand in line
I'd do almost anything if I could make you mine
I won't stand in line
I'd do almost anything if I could make you mine
I won't stand in line
