So In Love With You

Resurrection Band

Somewhere in Scotland or Wales I met You in heather Under starlit skies, was it in November A dream, a thought, a whisper there All I know is now I know You care Somewhere in time I realized

What can I say, can I do I'm so in love with You

Somewhere in time I realized how lost I'd been Black out on the moors, taunting Northern wind Rainsoaked daybreak, arriving at Land's End Dawn paints storm clouds You coloured me Your friend

Your name, my reason for being If love is, so are You Blue tide, mirror bright My heart reflects Your truth A spark, a prayer beyond the lee I found joy in Your reality Jesus, I'm so in love with You
