

## Crystal Moonlight

## Rhapsody of Fire

lonely vibration of pure and divine  
energy trapped in dead silence  
tell about feelings now  
lost in a time forgotten by all men  
strafire light up his unholy words  
prophecy kept by the ancients  
and the reveal the last fate of all  
the world needs to know

Presenze insane  
vane verità  
spettri d'arcani mondi  
cercano al di là  
l'al di qua

moonlight take my emotion now  
moonlight never forgive me  
moonlight romantic shade of the moonlight  
may you reflect the crystalline glare of my fate

thousands and thousands of wandering souls  
cry for the lust of a new life  
damnerd to ascend but to come back again  
for great will of revenge  
Acons infected merciless space  
tyrants of worlds now collidings  
i am the gateway, the seed of your mind  
a truth and a lie

Presenze insane  
vane verità  
spettri d'arcani mondi  
cercano al di là  
l'al di qua

moonlight take my emotion now  
moonlight never forgive me  
moonlight romantic shade of the moonlight  
may you reflect the crystalline glare of my fate
