

Nobody

Robert Randolph & The Family Band

As I'm looking out my window
I could see my time
with you is running low
When I think about
All that you've done
The truth hits me
like the morning sun
Can't nobody-
Can't nobody love me like you love me
You've never left me on my own
You are the reason
I sing this song
You've kept me warm
on the coldest nights
You helped me get
from the dark to the light
I'm ready to die
While I know that you love me
