

Don't Let Your Feet Slow You Down

Rodney Crowell

Now you feel like going and you know I'm knowing
The keys to the highway ain't right on the wall
If you gotta go, hell, you oughta know
Your blue eyes said goodbye a long time ago
Your fever will burn till your heart ways will learn
So don't let your feet slow you down

I know you're hearing sounds of those bright lights downtown
I know how you sparkle when I ain't around
Your heart is young and my time has come
So don't let your feet slow you down

The trouble with lovin' is the trouble with livin'
You feel like you're givin' and you feel like it's gone
And you never know just which way to go
Payin' no mind to stop signs or forks in the road
I've had my day and you're on your way
So don't let your feet slow you down

Now you don't need me, you just need to be free
So don't let your feet slow you down
Now don't let your feet slow you down
