

## Necromancy

Root

Come ! O you triple goddess !  
Hellish, earthly and heavenly goddess!  
Goddess of roads and crossroads !

You nightly friend of light,  
Who despite this carries light to us,  
You friend and mate of the Night .... !

Wandering among shadows and graves,  
You take pleasure in the long howling of hounds  
And in vapours of shed blood.

You lust after blood  
And fill mortal creatures with horror...!  
O Gorga ! O Morma ! You multiform Moon !

Turn out to be your beam,  
Favourable to the sacrifice carried  
In honour of you !
