Crawling Back

Roy Orbison

Only you and no one else Can keep me crawling back You know I cant help myself And now I'm crawling back

After all you've done to me The times you've turned me down I still will be your clown Because I love you I'm crawling back

You know I would die for you Heaven knows how I have cried for you But what else can I do But crawl on back to you, ooh Crawling back to you

People stop they talk and they stare But they don't know that you really care That you're only lonely, and making believe And you need me around When the world turns you down

Whenever you might need me I will come crawling back Wherever you will lead me I will come crawling back
