

Captives Come Home

Run Kid Run

Now you're lost but found
The sinking sand has pulled you in and brought you down
Struggle that's beyond yourself
Don't you know you gotta get up, get up and find a way back home
e
So hold on tight, let's go
And leave behind false sense of hope
Where creeping shadows call your name
As I'm waiting for the world to end
I'm clinging on to oxygen
I'm pulling captives by the hand
Come home, come home
Come home...
Words come and go
But how will your actions unfold?
Your character will be shown when lights go down now
Creeping shadows call your name (creeping shadows)
Possession is their claim
Now turn it around, turn it around
As I'm waiting for the world to end
I'm clinging on to oxygen
I'm pulling captives by the hand
Come home, come home
I'm waiting for the world to end
I'm clinging on to oxygen
I'm pulling captives by the hand
Come home, come home
Come...home
The world is falling faster
Falling so take this step and leap
To bring you over from the other side
I'm waiting for the world to end
I'm clinging on to oxygen
Pulling captives by the hand
Come home, come home
There's something inside that box you close
That only opens when your life explodes
On the other side, come home
Explodes, on the other side, come home
Come home
Come home
Come home
Come home
Come home...
Come home...
