

One in a Million

Run Kid Run

To my surprise I found my daylight
In summer skies yeah whoa
Colors came out in waves
When I first saw your face shine through
A spotlight fell that day
I'll make this loud so you can hear me say

Hey there one in a million
I feel alive as our love it collides
You put life into motion
You've got me spinning
Your spinning me out of control
Girl dream big
We'll do it all
When the city calls
Hand in hand this is love
Buildings tower over us
You a queen won't you dance won't you sing
Your melody (your melody)
Smile for the best days exist
I'm the luckiest your the reason for this

Hey there one in a million
I feel alive as our love it collides
You put life into motion
You've got me spinning
Your spinning me out of control
As my life explodes
You've got me hanging on i'm hanging on
I'm out of control as my life explodes
You've got me hanging on forever
We're hanging on together
We're hanging on forever

Hey there one in a million
One in a million
Life's in motion
You've got me spinning
As our world's collide

Hey there one in a million
I feel alive as our love it collides
You put life into motion
You've got me spinning
Your spinning me out of control.
