

Dance All Night

Ryan Adams

She ain't lonely now
See her shuffle across the floor
Yeah, she's happier now
See her smile and say "come on"

Let's dance all night
Let's dance all night
Dance all night
Yeah, I think she'll be alright

I ain't lonely now
Yeah, I got someone I love
Someone I think about
Someone for me to take care of

Dance all night
Dance all night
Dance all night
Yeah, I think I'll be alright

She ain't lonely now
See her shuffle across the floor
Yeah, she's happier now
See her smile and say "come on"

Let's dance all night
Let's dance all night
Dance all night
I think she'll be alright
