

Do I Wait

Ryan Adams

Do I want to say the things that I say
When I know that they are wrong?
Do I wait here forever for you?
Could you ask me to?

I've been waiting here all night
If you're not going to show
We're not going to fight
I could stay forever if I tried
Surrounded by things
Like a shadow in the light

Do I try and stay still for you?
And the clouds will part here
An emptiness of the room
Do you watch me from the corner of your eye?
Do we say goodbye?

I waited in the wings for you to appear
But you're never coming back
And we're never going to feel
Like we did
I waited all night
I tried to let you go
Like a shadow in the light
The light

Do I wait?
Do I wait for you?
Do I wait?
Do I wait for you?

Do I wait here forever for you?
Did you ask me to?
