

# Take a Ride With Me

Ryan Star

You're gonna take a ride with me  
I'll shake you from your cherry tree  
If you'll ever take a ride with me  
I'll break you and your cherry tree

And if you turn around here  
I will disappear  
And if you turn around here  
Nobody will hear  
A little girl who lost her way back home

If you take a ride with me  
I promise you some ecstasy  
If you ever take a ride with me  
Lovers love what love can be

And if you turn around here  
I will disappear  
And if you turn around here  
Nobody will hear  
A little girl who lost her way back home  
A little girl who lost her way back

Oooo

If you turn around here  
I will disappear  
And if you turn around here  
Nobody will hear  
A little girl who lost her way back home  
A little girl who lost her way back
