

--1st VERSE

Often i ask myself \* How something that i've never done  
can feel so familiar \* its just like the last time! \*  
Some call it déjà vu \* But i prefer to think of it as \*  
More than illusion \* Just like the last line, for the  
first time

--Bridge

You need a lifeline \* we're talking about your life  
line

--2nd VERSE

So if i've been here before \* You're telling me that  
what's in store \* Has all been decided, for the last  
time \* And if what they say is true \* Then everything i  
've learned 'till now \* Has been so misguided \* Like  
the first time, the last time

--CHORUS

When all is said and done \* We all become exactly \*  
What we're meant to be \* Just look at you and me \* When  
all is said and done \* Stare at the sun and \* Tell me  
what you really see \* You'll know what i mean

--BRIDGE

You need a lifeline \* we're talking about your life  
line

--CHORUS

When all is said and done \* We all become exactly \*  
What we're meant to be \* Just look at you and me \* When  
all is said and done \* Stare at the sun and \* Tell me  
what you really see \* You'll know what i mean
