

The die was cast the day we passed  
The point of no return  
Once through the maze & past the haze  
The prize for which we yearn  
This is more than a childhood passion  
This is more like a dream come true  
It takes time to get to Avalon  
That's why we're on this marathon  
It takes time to get to Avalon  
That's whe're on this marathon  
It's far too late we took the bait  
We've heard the siren's call  
No time to loose or pick and choose  
We've got to have it all  
This is more than a childhood passion  
Don't try & stop me I'm coming through  
[repeat chorus]  
Here we go, time to get started  
Don't give up, you will find it soon  
It'll come to you like a sonic boom  
Don't be late we can crash the gate  
Or we can try again on another day  
We'll leave the past behind if that's the price we have to pay  
You know we're coming to find it & it's not that far away  
[repeat chorus]
