Body Bags

Saigon Kick

Look into the eyes of the government liars Listen to the sound of the guilty choir Blood stains on the sacred pyre Under the book the breathing fire

Social nags, body bags
Make you gag
What a drag, drag, drag
Cyanide and suicide
Don't you try
You're gonna bleed some more

Come and let me tell you about social giants Heard about the news but no one buys it Killing is no secret science Politics are fixing all defiance

Marilyn was the finest sleeper J.F.K was the youngest bleeder Luther died the bravest dreamer So kill me know 'cause I'm a believer
