

Lizard

Saigon Kick

When I tell you people to do the lizard
Pull yourself together and take a listen
Take my flask and sip the liquid
Forgive me now for what I might deliver

Look around, all around, look around, all around
Lick your friends, until they start to quiver
I ask myself if to give is richer
Look around, all around, look around, all around

Save yourself from falling down, all around
There's no chance you can be found, underground
Lizard, lizard, lizard

There's a thing we say about the foolish wisher
Just do the dance and become the lizard
Look around, all around, look around, all around

Save yourself from falling down all around
There's no chance you can be found underground
Save yourself from falling down all around
There's no chance you can be found underground
Do it, lizard, do it, do it, lizard, do it
