

Russian Girl

Saigon Kick

Russian girl you come to me
You are my whole entire world
You talked me down from high above
And slowly took me by the hand

Russian girl, stay with me
You lay me down upon the sand
And sing a song into the night
Your eyes so blue, I drink them in
And they fell my deepest need

Russian girl, stay with me
I don't mind if we don't speak a word
We don't have to talk about it anyway
I just want to be the only one
Let me say awhile please
Let me say awhile
Russian girl

You promise love and I fall down
Proposition me my girl
Stranger still, I can't resist
You're simply overtaking me

Russian girl, stay with me
I don't mind if we don't speak a word
We don't have to talk about it anyway
I just want to be the only one
Let me say awhile please
Let me say awhile
Russian girl

Russian girl, stay with me

Russian girl you come to me
You are my whole entire world
You talked me down from high above
And slowly took me by the hand

Russian girl, stay with me
I don't mind if we don't speak a word
We don't have to talk about it anyway
I just want to be the only one
Let me say awhile please
Let me say awhile
Russian girl
