

# Fear Of Life

Sam Brown

See the shadows  
How they move across the room  
And up above, always one step ahead of you  
But see the light

Do you see any light?  
Or do you just see spite?  
In the distance, if I look I see the sun  
Obliterating all the shadows, everyone  
But it's a long climb  
Through a sea of lies  
Into the stream of light

There is a sun for me  
It's from within for all to see  
How does it feel to be lost in life?  
If I try then maybe I can find it here  
before I die  
How does it feel to be lost in fear of life?  
You're too scared to even try  
It's called fear of life

Fear of life

I know it can be hard  
To always speak the truth  
More to myself than to you  
And so I try to find the easy road  
But it only goes to nowhere  
And have learned  
That there is some prize  
That you and I can earn  
If only bit by bit  
It's worthwhile  
From the sky, down to the ground  
I am all I know  
So I must know me well

There is a sun for me  
It's from within for all to see  
How does it feel to be lost in life?  
If I try then maybe I can find it here  
before I die  
How does it feel to be lost in fear of life?  
You're too scared to even try  
It's called fear of life

Fear of life  
Fear of life

There is a sun for me  
It's from within for all to see  
How does it feel to be lost in life?  
If I try then maybe I can find it here  
before I die  
How does it feel to be lost in fear of life?  
You're too scared to even try

It's called fear of life
