

# Liberty in Reality

Sam Brown

Liberty in reality... isn't all it's made out to be  
Liberty... is a wonderful thing but it doesn't mean you're free  
Liberty in reality... can't take the moon out of the sky  
Liberty... can't take the stars out of your eyes

You should never have to let go  
Of what's inside and what you know  
Let your heart swing next to your soul  
Keep what's inside and hold it close

Liberty in reality... they'll hound you hard all through your life  
Liberty... but no-one can stop you asking why

You should never have to let go  
Of what's inside and what you know  
Let your heart swing next to your soul  
Keep what's inside and hold it close
